

# Why choose Premier Access?

Our commitment to delivering affordable, quality benefits and personalized, responsive support might be enough for you, but it's not enough for us.

Here are seven significant reasons Premier Access should be the benefits company you choose.

## Dental Experience & Understanding

Since 1989, Premier Access has been focused on meeting dental benefit needs. Our immersion in the industry has allowed us to build a company that delivers cost-effective benefits and pays claims quickly, resulting in satisfied members, clients, and brokers.

## Top-Notch Service

Premier Access considers customer satisfaction its highest priority. We assign each of our clients a dedicated Account Manager prior to implementation. Who serves as a Single Point of Contact for all administrative needs. This provides clients with quick and efficient issue resolution as well as ongoing open and effective communication.

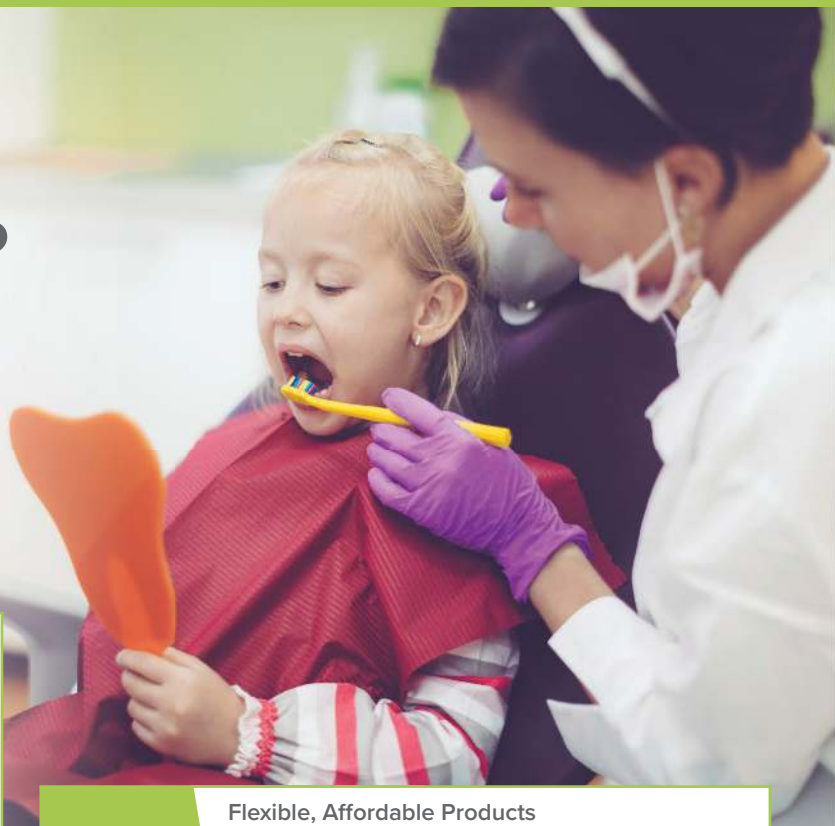

## A First-Place Ruark Ranking for Network Discounts\*

Out of 14 dental companies, Premier placed first for the effectiveness of our PPO Network Discounts, Effective Discounts, and PPO Network Utilization. Our network is designed to save members an average of 40 percent over usual fees. That's thanks to a provider relations team that works to continually expand our network and ensure member satisfaction with our dentists.

## Expanded Plans & Contract Options

Our clients can enjoy coverage without a waiting period for fewer than 10 employees and standard PPO plans for 3 or more employees. We offer 12 – to 24-month contracts. We also offer utilization reporting details for groups under 100.

## Flexible, Affordable Products

Our clients aren't the same, so why should they have the same plans? With a variety of standard and customizable dental PPO, DHMO plans and vision options, we can build a benefits program to clients' specific needs and price points. The programs provide access to quality providers and offer deep network discounts that help reduce claims costs for clients and out-of-pocket costs for members.

## Ongoing Network Expansion

Premier Access has built a stable and culturally diverse network and we continuously work to increase our networks. We believe in a philosophy that promotes longstanding relationships with providers based on integrity, trust and performance. When recruiting new providers, we follow not only NCQA and state credentialing requirements, but also determine the compatibility within our networks.

## The EDI Experts

EDI is the perfect way to facilitate administration of initial enrollment and ongoing updates. Premier Access is dedicated to leveraging technology to improve communication and facilitate administration for our clients. We have a dedicated EDI team that has the knowledge, personnel and the infrastructure to do the job efficiently and accurately.

\*Premier Access results based on the 2015 Ruark Study and on fees used for insured customers in California and Nevada.
