# We Can Help You!

## What We Offer....

Understanding how to get Medicare benefits is not as simple as just turning 65.

As a licensed representative, we can provide you with:

### A FREE personalized consultation....

We can assist you by reviewing your current health insurance and all other options available.

### Availability in your area....

We know what plans and benefits are available in your area. Let us help you find affordable coverage!

### Making sure you have it all covered....

Processing of health insurance paperwork can be overwhelming! Our services include assisting you with filling out and submitting necessary paperwork to confirm your enrollment.

### Meeting enrollment deadlines....

To avoid penalties, it is important to not only know when the enrollment deadlines are, but to also be well informed prior to these deadlines. We can help you be prepared for upcoming enrollment dates.

## Tips for a Smooth Transition

Start by considering the current state of your health. Ask yourself, and perhaps your doctor, what the chances are that you will be hospitalized or incur large medical bills in the next year.

Begin your plan research one to three months prior to the enrollment periods to ensure you have the most up-to-date information.

Contact an insurance representative to help understand changes to Medicare Health Insurance benefits.

## Get started on understanding your Medicare health insurance options!

Whether you are retiring, transitioning on to Medicare, or want to make changes during the Annual Enrollment Period (October 15th - December 7th) we can review and educate you on the various options available.
